

CULTIVATING A

Deep Rooted Marriage

Rachel & Michael Blackston,

therapists and founders of Redeemer Counseling in Orlando, Florida, will invite participants to honestly engage their own stories while developing an understanding of their partners'. Through their experience working with countless couples over the years, combined with sharing their own personal marital triumphs and struggles, they will weave together the best of attachment theory with an invitation to love sacrificially through the transformative nature of the Gospel.

Trees flourish when they are planted in a particularly favorable environment. We believe marriages do as well. This is a retreat inviting you to explore the soil of your marriage in the hopes of discovering essentially rich nutrients that will make it thrive. Grounded in the narrative of Scripture, the Deep Rooted Marriage Retreat is designed to deepen your intimacy with God and your partner by examining the important roots of story, style of relating, sexuality, and service.
